riverseeber12@gmail.com

EXPERIENCE

AVC Learning Center, Lancaster, CA — Peer Tutor (Math, Computer Science, and Physics)

October 2023 - June 2026

Helped students understand difficult concepts in their courses; most often in Math, Computer Science, and Physics. Involved a lot of time explaining difficult concepts to peers coming from a different background than me.

AVC STEM Club — Computer Science Committee Chair

August 2025 - June 2026

Ran the Computer Science committee – a sub-committee of the STEM Club. Was responsible for planning activities, coordinating projects, and organizing members to effectively work together within the committee.

EDUCATION

Antelope Valley College — AS-T in Computer Science, AS-T in Math, and AS-T in Physics

August 2022 - June 2026

Achieved 3 distinct Associate degrees as a result of a particularly thorough course sequence, covering many rigorous STEM classes.

PROJECTS

SLIM — Cryptographic C++ Library

Fall 2024 - Fall 2025

A C++ library for handling both passwords as well as temporary authentication tokens (cookies) in a cryptographically secure way, designed to be compliant with NIST standards. I presented this library at the SCCUR 2025 Undergraduate Research conference.

<https://github.com/rseeber/SLIM>

WebGraph — Python Web Crawler

Spring 2026 - PRESENT

A python script that recursively fetches a webpage and all its links, mapping out the graph structure of the web by keeping track of which pages link to where.

<https://github.com/rseeber/webGraph>

SKILLS

C/C++, Python, Java

Networking and Cryptography

Data Structures and Algorithms

Linux

AWARDS

2026 AVC Honors
Convocation: *Subject Area Award for Computer Science*

Spring 2025 AVC President's List

COURSEWORK

Linear Algebra

Discrete Structures

Modern Physics

Calculus & Diff. Eq.

Computer Architecture

Data Structures and Algorithms

CAREER AMBITIONS

Software Engineering

Cybersecurity

ML/AI
